

Hafidz Mulia

Remote Programmer | Full-Stack Web Developer

+62 851 5833 5740 | hafidzmulia@gmail.com | Surabaya, Indonesia
hafmul.site | github.com/hafidzmulia-its | linkedin.com/in/hafidz-mulia

Professional Summary

Final-year Mathematics student at ITS with hands-on experience building and deploying full-stack web applications. Strong in PHP, Laravel, JavaScript, TypeScript, SQL, REST APIs, authentication, admin dashboards, and production deployment. Comfortable working independently in remote setups and delivering practical software from requirements and database design through implementation, debugging, and release.

Relevant Experience

Founder & Lead Developer

2026 – Present

NechCode — Freelance Digital Agency

Deliver web software projects end-to-end for clients and research teams, covering requirements gathering, architecture, backend and frontend development, database modeling, deployment, and post-launch iteration. Built working systems across internal tools, learning platforms, health platforms, and operational workflows.

Programming and Web Development Instructor

Jan 2025 – Present

Timedoor Academy

Teach programming fundamentals, algorithmic thinking, debugging, and introductory web development. This work strengthened my code communication, structured problem solving, and ability to explain technical issues clearly in remote-friendly ways.

Fullstack Developer Intern

May 2025

SMA IT Al Uswah Surabaya

Developed and delivered a Laravel-based attendance system from requirement gathering through implementation and user testing, giving direct experience shipping PHP software for a real institution.

Selected Projects

sina — Children's Storybook Platform

2025

Fullstack Developer | Laravel 12, PHP 8.2, MySQL, Blade, Tailwind CSS, Alpine.js

Built a responsive content platform with reading progress tracking, role-based access control, media management, and an admin CMS. Handled backend logic, relational data modeling, and deployment for a live release.

erapor — Automated Reporting System

2025

Fullstack Developer | Next.js, TypeScript, MongoDB, NextAuth, PDF / Excel export

Developed a reporting platform with role-based dashboards, user management, and automated document export workflows. This project demonstrates practical JavaScript and TypeScript delivery for internal operations software.

hisurabaya — GIS Hotel Information System

2025

Fullstack Developer | Laravel 12, PHP 8.2, SQL Server, Tailwind CSS, Leaflet, Turf.js

Built a GIS-based hotel information system with point, route, and area search modes. Combined Laravel and interactive mapping workflows to deliver a stronger spatial-search product than a standard CRUD application.

patahero_api — REST API Backend for Mobile App

2026

Backend Developer | Laravel 12, PHP 8.2, MySQL, Sanctum

Built a RESTful backend for a mobile first-aid application, including structured treatment endpoints, token-based authentication, user profile management, and image upload handling.

Technical Skills

Languages:	PHP, JavaScript, TypeScript, SQL, HTML, CSS
Frameworks:	Laravel, Next.js, React, Blade, Alpine.js, Tailwind CSS, Bootstrap
Databases:	MySQL, PostgreSQL, PostGIS, MongoDB, Microsoft SQL Server, Appwrite, Firebase Firestore
Auth & API:	REST API design, Laravel Sanctum, Laravel Breeze, NextAuth.js, Iron Session, Google OAuth
Tools & Cloud:	Git, GitHub, Composer, npm, Vite, Vercel, Cloudinary, Vercel Blob, Google Sheets API
Working Style:	Independent delivery, async communication, debugging, database modeling, admin dashboards, deployment
Languages:	Indonesian (native), English (professional working proficiency for technical reading and writing)

Education

Bachelor of Mathematics	<i>2022 – Present</i>
<i>Institut Teknologi Sepuluh Nopember (ITS), Surabaya</i>	
GPA: 3.36 / 4.00 Focus: Computational Mathematics and Informatics Thesis work includes improving data warehouse query performance on PostgreSQL and TimescaleDB for large-scale time-series data.
