Professional Summary

Final-year Mathematics student at ITS with hands-on experience delivering production-grade **full-stack web applications** using **Laravel, Next.js, PHP, and MySQL/MongoDB**. Shipped 7+ real-world projects across personal builds and client work — including a REST API backend for a mobile first-aid app, a gamified LMS platform, and a GIS-based hotel directory — covering the full development cycle: backend design, database modeling, authentication, and deployment. Also operates **MulyOS**, a freelance digital agency delivering web apps for UMKM and the academic community. Based in Surabaya, immediately available for inhouse work.

Education

Bachelor of Mathematics (Computational & Informatics Track) *2022 – Present*
Institut Teknologi Sepuluh Nopember (ITS), Surabaya
Relevant coursework: Algorithms, Database Systems, Statistical Computing, Software Engineering.

Selected Projects

ELKPD — Gamified Learning Management System *Aug 2025 – Jan 2026*
Fullstack Developer | Next.js · NextAuth · MongoDB
Built a quiz-based LMS platform supporting thesis study for academic users.
- Multi-level gamified quiz system with educational assessments and progress scoring.
- Teacher dashboard for real-time student progress monitoring and comprehensive reporting.
- Role-based access control (Teacher / Student) secured via NextAuth authentication.
- MongoDB for flexible user progress tracking and session persistence.

Patahero API — RESTful Backend for Mobile App *Jan 2026*
Backend Developer | Laravel 12 · PHP 8.2 · MySQL · Laravel Sanctum · Eloquent ORM
Built a production REST API backend for PataHero, a mobile first aid application.
- Designed and implemented structured API endpoints for fracture first aid data with step-by-step image delivery.
- Implemented token-based authentication (Laravel Sanctum) covering register, login, logout, and profile management.
- Handled file uploads (profile photos, step images) via Laravel storage with public symlink.
- Deployed to cPanel/shared hosting; seeded database with real fracture treatment data.

View Repository / Demo

HiSurabaya — Hotel GIS Directory *Dec 2025*
Lead Developer | Laravel 12 · Tailwind CSS · Alpine.js · Leaflet.js · Google OAuth (Socialite)
Built a complete hotel directory with interactive map search.
- Integrated Google OAuth with Laravel Socialite for one-click login.
- Three map search modes: point locations, route distance, and polygon area selection.
- Role-based dashboards for User, Hotel Owner, and Admin.

View Repository / Demo

Sina — Children's Digital Storybook Platform *Oct 2025 – Dec 2025*
Sole Developer | Laravel 12 · PHP 8.2 · MySQL · Tailwind CSS · Alpine.js · Cloudinary API
End-to-end story platform with three-tier role system (Superadmin / Admin / User).
- Integrated Cloudinary API for image upload and CDN delivery.
- Reading progress tracking per user; admin CMS for content management.
- Deployed via Vercel with Aiven hosted MySQL. Live: `sina.hafmul.site`.

View Repository / Demo

Literasik — Library Management System *Jun 2025 – Dec 2025*
Sole Developer | Laravel 12 · PHP 8.2 · MySQL · Tailwind CSS · Alpine.js · Eloquent ORM
Built a complete school library system from ground up.
- Full CRUD for books, students, and book copies (eksemplar) with multi-state availability tracking.
- Automated fine calculation (Rp 1,000/day) with borrowing history and PDF report export.
- Role-based access (Librarian / Student) with Laravel Breeze authentication.
- Seeded 200+ realistic records using Faker; deployed to production at `literasik.hafmul.site`.

View Repository / Demo

SIBPS — Blog & Content Management System *Jan 2025 – Dec 2025*
Lead Developer | Laravel 11 · Eloquent ORM · MySQL · Laravel Breeze · Blade
Developed a role-gated blog CMS with full article CRUD, Eloquent relationships, and Breeze starter kit authentication. Focused on clean controller/model separation and normalized database schema design.
View Repository / Demo

SI Presensi — Student Attendance System *May 2025*
Fullstack Developer | Laravel · MySQL · Blade
Developed and deployed a digitized attendance tracking system during internship at SMA IT Al Uswah. Conducted UAT with non-technical staff to ensure the system was robust against common data-entry errors. Delivered on-time for academic year rollout.
View Repository / Demo

Professional Experience

Founder & Lead Developer *2026 – Present*
MulyOS — Freelance Digital Agency
Founded and operate MulyOS, a freelance digital agency helping UMKM (small-medium enterprises) and civitas akademik (academic community) build web and mobile applications using modern stacks (Next.js/React). Selected client projects:

- **NestBloom, Premom, Thyva, Soulmom** — Full-stack client applications built with Next.js.
- **Real Keke** — Full-stack client application (currently in development).

Fullstack Developer Intern *May 2025*
SMA IT Al Uswah Surabaya
Sole developer for a Laravel-based attendance system. Handled requirements gathering, DB design, development, and UAT with the school's admin team. Delivered a working system adopted for operational use.

Programming & Web Development Instructor *Jan 2025 – Present*
Timedoor Academy
Teaching programming fundamentals, algorithmic thinking, and web development basics to students. Developed structured lesson materials explaining logic, debugging, and project architecture for non-experts.

Assistant Laboratory Coordinator (Algorithms & Visual Computing) *2024 – Dec 2025*
ITS Mathematics Department
Guided 50+ junior students weekly in algorithm design, code debugging, and database fundamentals. Authored and maintained practicum module materials.

Technical Skills

Languages:	PHP (primary), JavaScript, TypeScript, SQL
Frameworks:	Laravel (Expert — v11 & v12), Next.js, Alpine.js
Databases:	MySQL, PostgreSQL, Microsoft SQL Server, MongoDB
Frontend:	Tailwind CSS, Bootstrap, Blade Templates (Laravel)
API & Integration:	RESTful API design, Google OAuth (Socialite), Cloudinary, Third-party API integration
Tools:	Git (GitHub), Composer, NPM/Vite, Figma, Vercel
Currently Learning:	Laravel Livewire, Inertia.js

Leadership & Organizational Experience

1st Vice Head *Feb 2025 – Dec 2026*
HIMATIKA ITS (Mathematics Student Association)
Lead operational transformation and staff coordination for a 100+ member organization. Built internal reporting workflow that reduced administrative overhead.

Web Developer *Jul 2024*
Abila Company — ITS KKN Abdi Masyarakat Program
Developed a company profile and documentation website as part of the ITS KKN Abdi Masyarakat community service program, delivering the full site from initial mockup to production deployment.

Achievements & Competitions

- HIMATIKA ITS member recognized for significant contributions to departmental digitization (erapor HIMATIKA system).
- Active contribution to 7+ live, deployed web applications accessible via custom domain or Vercel, including real-world client projects delivered through MulyOS.
