Professional Summary

Final-year Mathematics student at Institut Teknologi Sepuluh Nopember (ITS) with hands-on experience building and deploying full-stack web applications across reporting, GIS, education, and health-tech domains. Strong in JavaScript, TypeScript, React, Next.js, REST API design, authentication, database modeling, and production deployment, with additional Python exposure through teaching introductory AI and computer-vision programming using NumPy and OpenCV. Comfortable owning features end to end in remote-friendly environments, from requirements and data design to implementation, debugging, and release.

Relevant Experience

Freelance Web and Mobile Apps Developer *2026 – Present*
Independent Client and Research Projects
Build and deliver client-facing web applications and backend services for product, research, and internal-tool workflows. Handle requirements analysis, system design, frontend and backend implementation, database modeling, deployment, debugging, and post-release iteration.

Programming and Web Development Instructor *Jan 2025 – Present*
Timedoor Academy
Teach programming fundamentals, debugging, introductory web development, and selected Python-based programming modules. Guide students through implementation problems, review project work, and communicate technical concepts clearly in structured learning settings, including introductory AI and computer-vision exercises using NumPy and OpenCV.

Assistant Laboratory Coordinator *2024 – Dec 2025*
ITS Mathematics Department
Supported programming and visual computing practicum activities, mentored junior students in algorithmic problem solving, and helped maintain technical learning materials and coordination flow.

Full-Stack Developer Intern *May 2025*
SMA IT Al Uswah Surabaya
Developed and delivered a Laravel-based attendance system from requirement gathering through implementation and user testing, providing direct experience shipping software for a real institution.

Selected Projects

hisurabaya — GIS Hotel Information System *2025*
Full-Stack Developer | Laravel 12, PHP 8.2, SQL Server, Tailwind CSS, Leaflet, Turf.js
Built a GIS-based hotel information system with point, route, and area search modes. Combined backend logic, spatial workflows, and interactive mapping to deliver a stronger product than a standard CRUD application.
View Repository / Demo

erapor — Automated Reporting System *2025*
Full-Stack Developer | Next.js, React, TypeScript, MongoDB, NextAuth, PDF / Excel export
Developed a reporting platform with role-based dashboards, user management, and automated document export workflows. Strengthened experience in internal tools, API-backed features, and maintainable web application delivery.
View Repository / Demo

keke-pwa — Safety Incident Reporting Platform *2026*
Full-Stack Developer | Next.js, React, TypeScript, Firebase, Cloudinary, PWA
Built a mobile-first reporting system with status tracking, comment threads, push notifications, and admin communication workflows. Shows practical experience in responsive UX, operational software, and real-use reporting flows.
View Repository / Demo

patahero_api — REST API Backend for Mobile App *2026*
Backend Developer | Laravel 12, PHP 8.2, MySQL, Sanctum
Built a RESTful backend for a mobile first-aid application, including structured endpoints, token-based authentication,

user profile management, and image upload handling. Adds strong backend and API design proof to the broader full-stack profile.

Technical Skills

Languages:	JavaScript, TypeScript, Python, PHP, SQL, HTML, CSS
Frontend:	React, Next.js, Tailwind CSS, Blade, Alpine.js, Bootstrap
Backend:	Next.js API Routes, Laravel, REST API design, authentication, admin systems, CRUD workflows
Databases:	PostgreSQL, PostGIS, MongoDB, MySQL, Microsoft SQL Server, Firebase Firestore, Appwrite
Tools & Cloud:	Git, GitHub, npm, Composer, Vercel, Cloudinary, Vercel Blob, Google Sheets API, NumPy, OpenCV
Working Style:	Remote collaboration, debugging, feature ownership, deployment, technical explanation, project mentoring
Languages:	Indonesian (native), English (professional working proficiency for technical reading and writing)

Education

Bachelor of Mathematics *2022 – Present*
Institut Teknologi Sepuluh Nopember (ITS), Surabaya
GPA: 3.36 / 4.00 | Focus: Computational Mathematics and Informatics | Thesis work includes PostgreSQL and TimescaleDB query-performance optimization for 50M+ row time-series data.
